

Filter Classes
according to
ISO 10121-3

Frame and Seal

- Durable plastic frame, stable and resistant to corrosion.
- Fully incinerable.
- Continuous seal ensures optimal assembly tightness and prevents the escape of unfiltered air.

Activated Carbon Filter Media

- Synthetic medium with integrated activated carbon.
- High adsorption capacity.
- Maximum filter area in minimal space for longer service life.

more
information

Filter Type	Activated Carbon Air Filter
Dimensions	592 x 592 x 296 mm
Nominal air flow rate [m ³ /h]	3400
Initial pressure drop [Pa]	70

Gas	Filter Classes according to ISO 10121-3
Ozone (O ₃)	MD 60
Sulfur Dioxide (SO ₂)	vLD 35
Nitrogen Dioxide (NO ₂)	LD 65
Toluene (C ₇ H ₈)	MD 65
